

GIRAFFE

The world's tallest land mammal, the giraffe can reach 17 feet in height. This allows them to eat leaves that other herbivores can't reach. Giraffes have a beautiful pattern of large brown spots that are different on every giraffe. These remarkable animals are native to Africa.

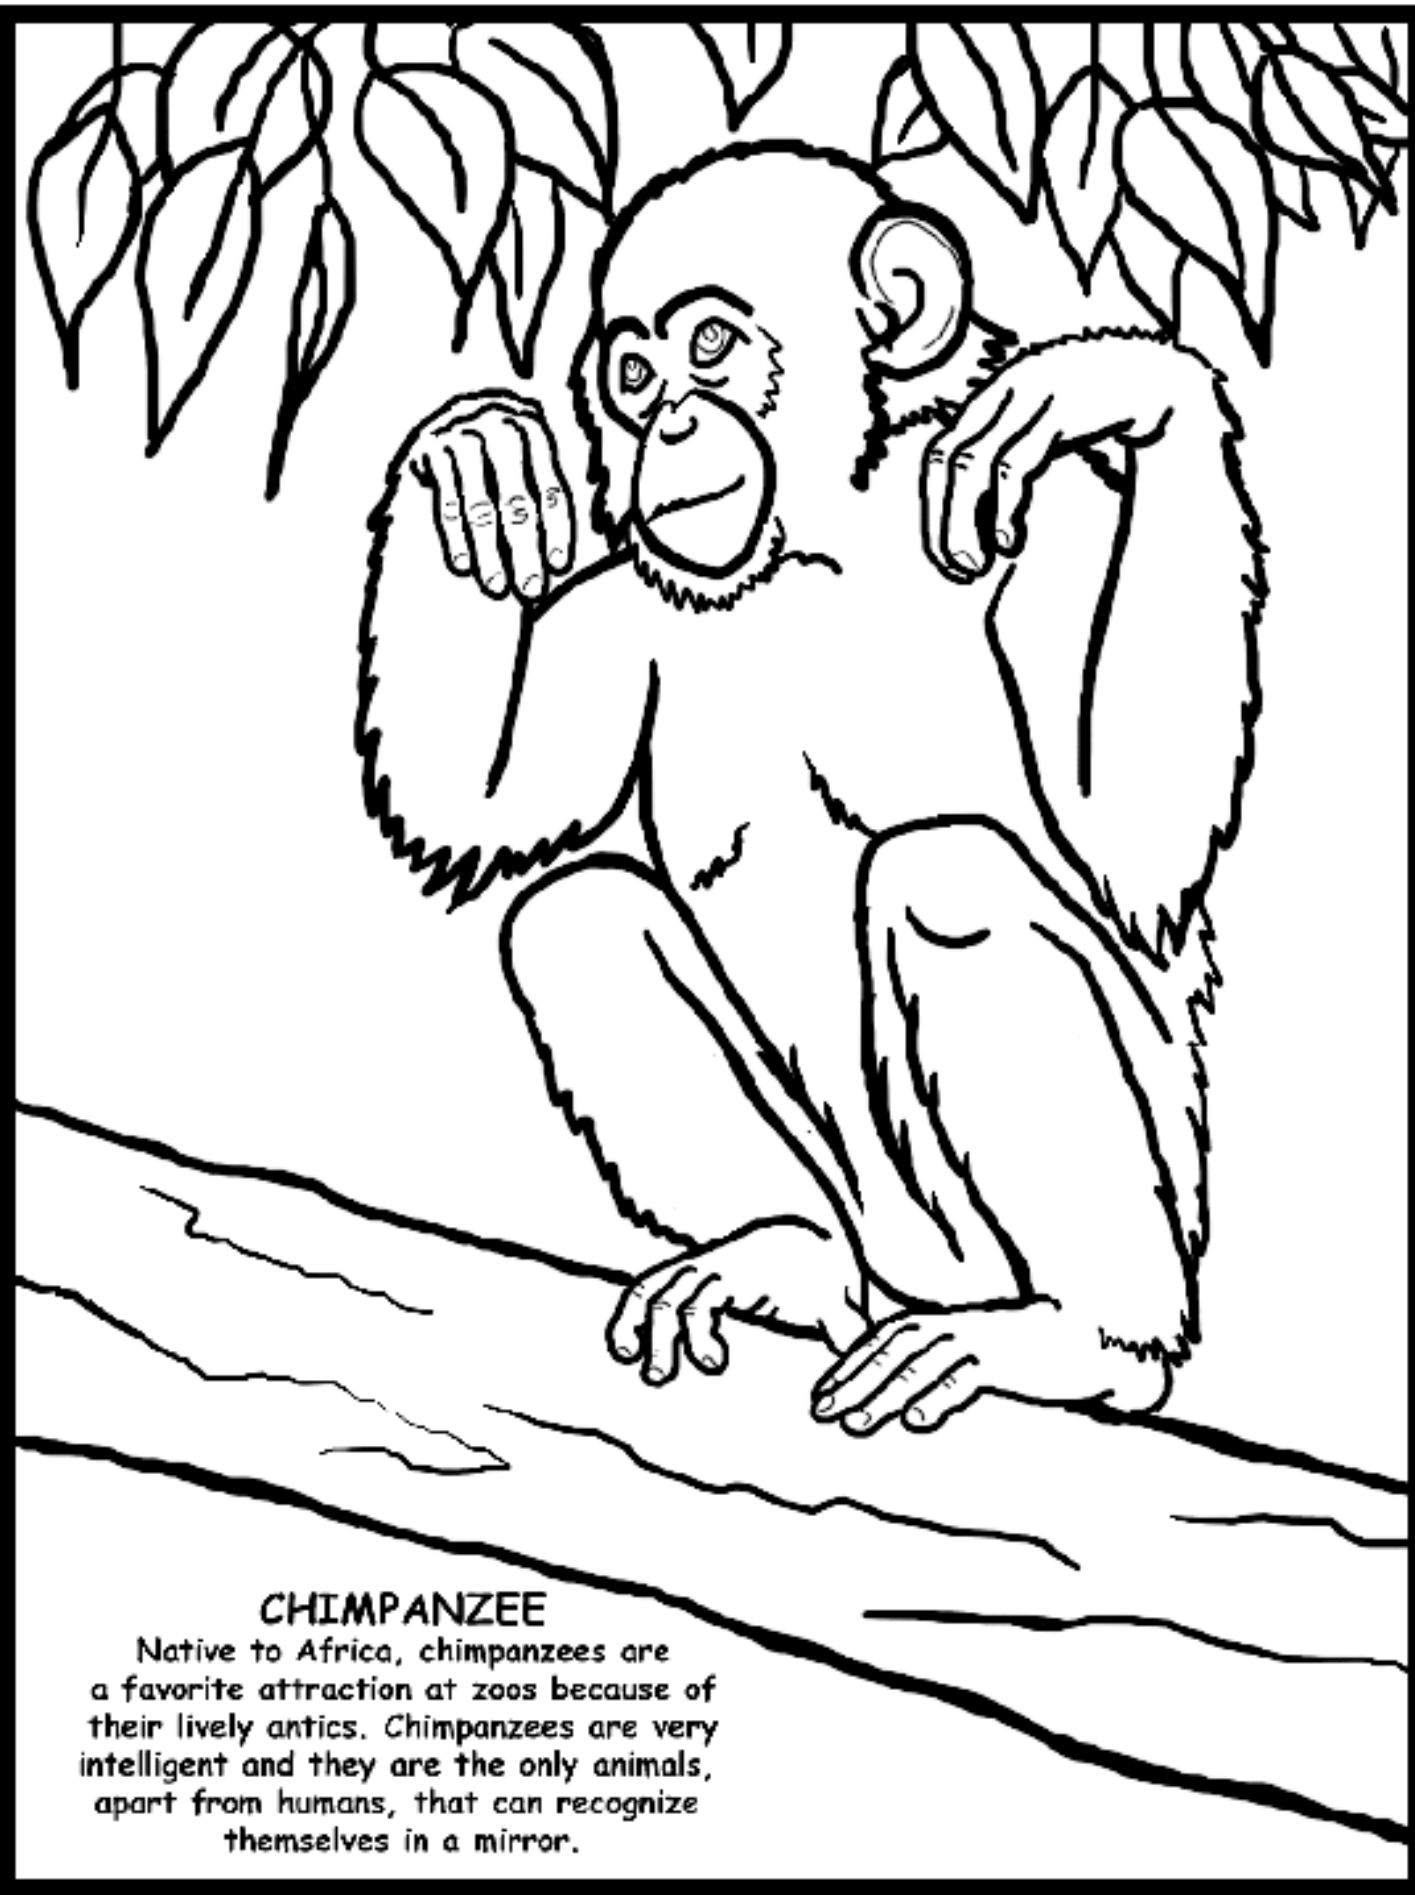

The Cheetah

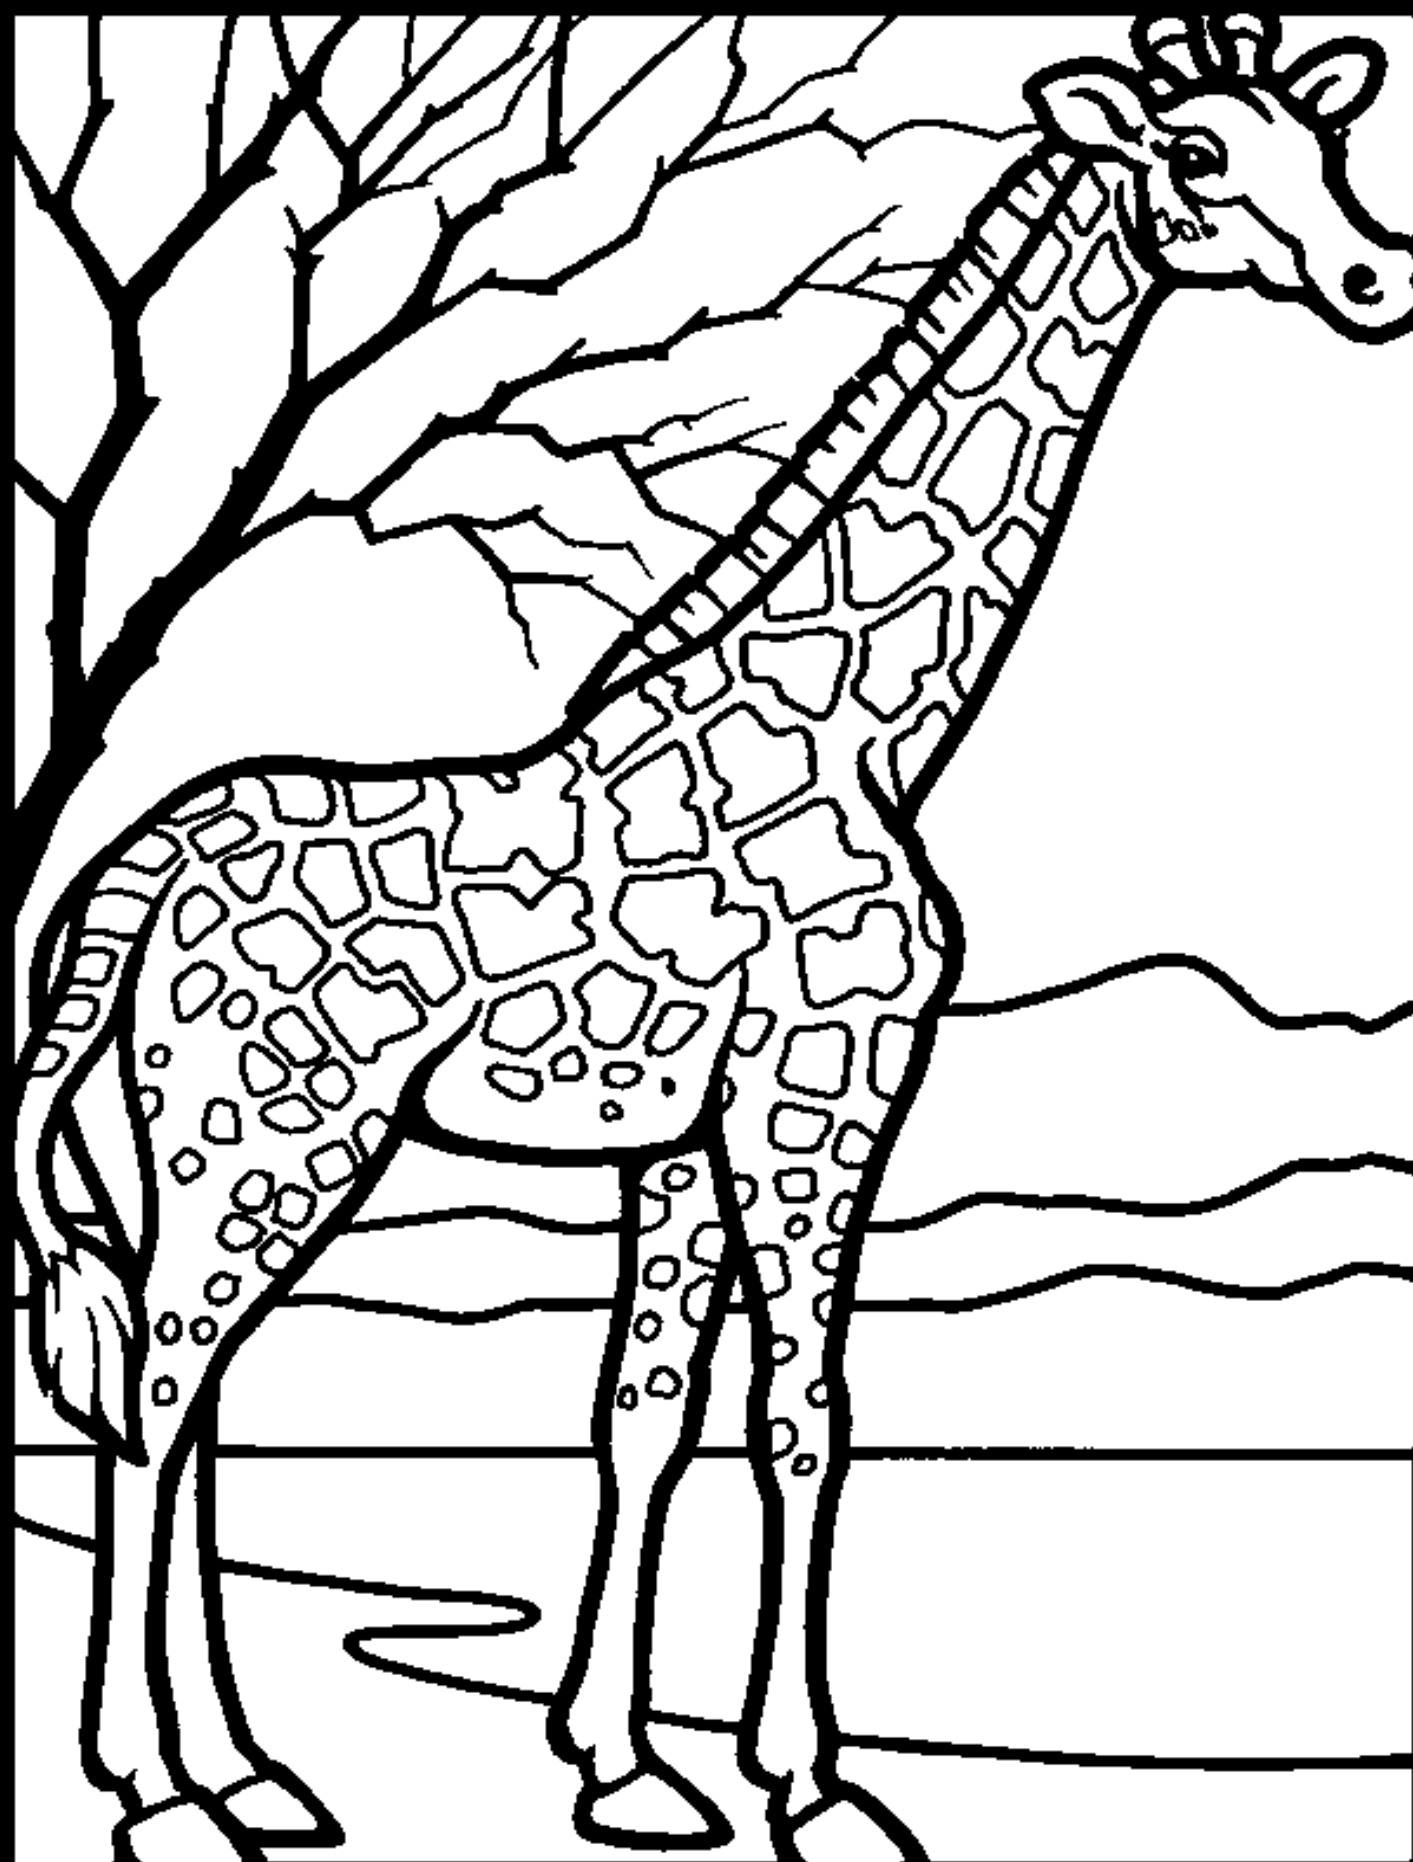

This cat is the fastest of all land animals. It can sprint from 0 to 60 miles per hour in about 3 seconds. The cheetah is native to Africa and southern Asia.

CHIMPANZEE

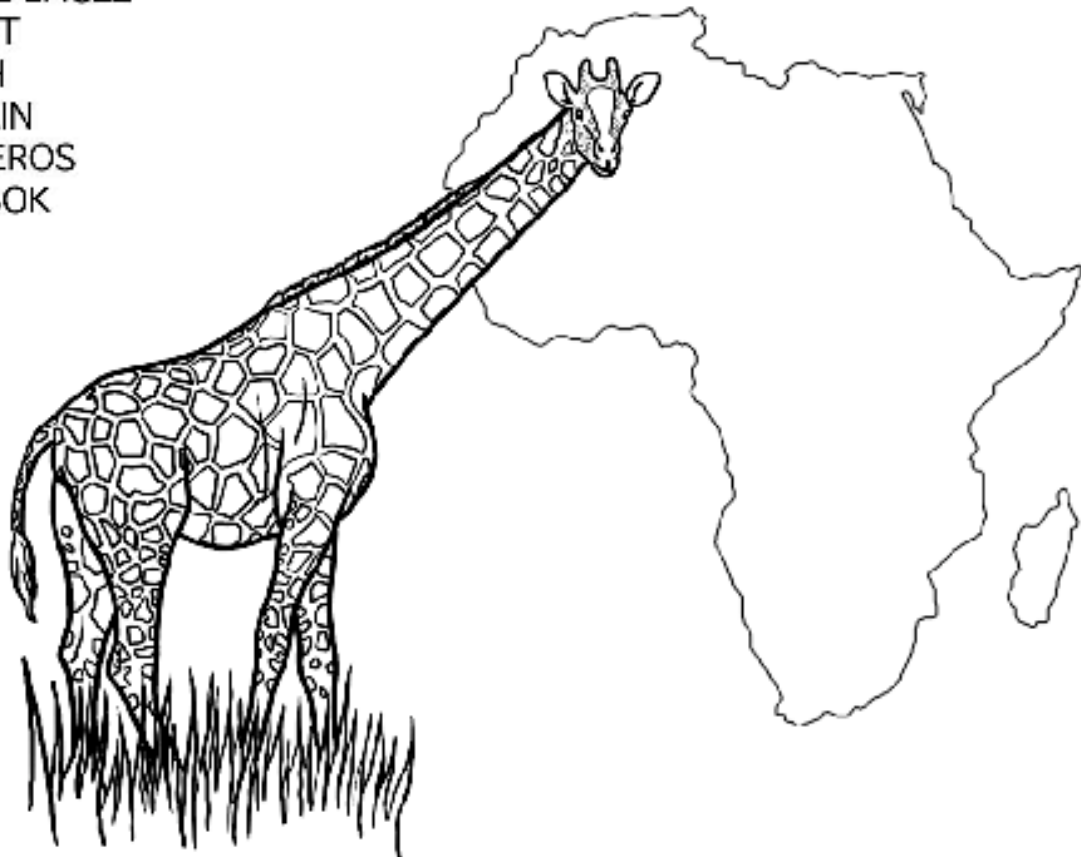

Native to Africa, chimpanzees are a favorite attraction at zoos because of their lively antics. Chimpanzees are very intelligent and they are the only animals, apart from humans, that can recognize themselves in a mirror.
